INSTRUCTIONS

1. Wipe a damp sponge over the entire plate to remove dust and contaminants.
2. Paint 1 thick coat of Mississippi Mud all over the monkey until no white is showing.
3. When the color has lost its shine, take a slightly damp sponge and gently wipe the color off the pottery. You want to wipe lightly, removing the color from just the raised parts of the texture. This will leave the color in just the cracks, giving it an antiqued look. For best results, continually rinse your sponge in your water bowl as you wipe, as needed, and squeeze out the water well so it doesn't drip onto your pottery.
4. With a sea sponge, apply Honeycomb and Cinnamon Stick on the back by alternating colors to blend.
5. Repeat Step 4 on the front of the monkey adding in some Chocolate. Try to avoid the face.
6. With a clean, damp sponge, wipe any sponged color off of the face.
7. Paint 1 watery coat of Red Rocks on the face.
8. Paint 1 thick coat of Mississippi Mud on the nose.
9. Paint 1 thick coat of Licorice on the eyes.
10. With Snow Flake, add small eye shine dots with the back of a paint brush then swipe some glare on the nose.

TIPS

- Allow paint to dry between coats.
- Wash brush between colors.
- If you wipe too much color off while antiquing, just apply more of the dark color, let it dry until it has lost its shine, and re-wipe with the round sponge.
